

**The Maharashtra Universities
Account Code**

PREFACE

It gives me great pleasure to present a Common Account Code applicable to all non-agriculture universities in Maharashtra. Though the accounting principles are same everywhere, the procedure followed in every university is different. However, it was felt necessary to have a unique and common accounting procedure for all the universities. The meeting of the Finance and Accounts Officers of all the non-agriculture universities was called in this first meeting it was decided by all the Finance Officers, that the account code prepared by Shivaji University Kolhapur should be considered as a base, and with necessary amendments, it could be converted into a Common Account Code for all the universities.

On detailed deliberation, regarding the suggestions and comments received from all the universities on the draft common Account Code, necessary amendments were carried out and a final draft code was prepared and it was sent to all the universities for approval of the university authorities by Director of Higher Education. The final draft was then submitted to Finance Department for approval of the Govt. The Finance Department had asked the Director of Accounts and Treasuries to go through the draft and give their remarks on it. The Director of Accounts and Treasuries, Maharashtra State, Mumbai and the Finance Department has raised certain queries which were sent to Finance & Accounts Officer, Shivaji University, Kolhapur for necessary compliance. These queries and the compliance were discussed and approved by all the Finance Officers in their meeting held at Nagpur on 25 & 26 September, 2009. The final draft was then sent to Government for approval and implementation.

After such a long process and thorough examination of the system, this Account Code is prepared for which I do appreciate the efforts taken by all the Finance & Accounts Officers of non-agricultural universities, Director of Higher Education and I specially acknowledge the efforts and initiatives taken by the

Finance and Accounts Officer, Shivaji University, Kolhapur. I also appreciate an efforts of my colleague Dy. Secretary, Shri Rajaram Jadhav who has taken keen interest to complete the process for preparation of Model Common Account Code.

The objective of this Account Code is to make accounting procedures as clear and useful as possible. There are no unified rules for accounting procedure in all the universities. General accounting principles are being adopted by them. That's it was felt necessary to have a unified common procedure in all the universities who are governed by Maharashtra Universities Act, 1994. It defines general responsibility and accountability of the employees and authorities of the University. The unique feature of this Account Code is its suitability for the computerised system which is a need of the time. This will bring transparency in the accounting procedure of the universities.

As the procedures will similar in all the universities, it will be very much convenient for the state Govt. and audit authorities to exercise effective financial control.

Sanjany Kumar
Principal Secretary,
Higher and Technical Education,
Govt. of Maharashtra

Note: -In the case of urgency and when it is not advisable to wait till the date of next meeting of the Building Committee, petty and minor deviations not involving major changes in the design may be made under the written order of the Vice-Chancellor and the fact reported to the Building Committee for ratification at the time of its next meeting.

5.20 Repairs

The term “repairs” includes upkeep and maintenance of buildings, equip-ment or other asset so as to keep them in proper working order. It also includes minor additions or alterations which do not materially increase the value of the asset.

Where it is not practicable to prepare a schedule of rates, the rates adopted by Public Works Department of the State Government may be adopted.
- 5.24 Detailed plans and estimates for original works shall be prepared only after the administrative sanction to the work is accorded. The letter number of the U.G.C. or the resolution number of the Management Council, according approval shall always be quoted in the estimate.
- 5.25 The Estimate shall be prepared generally in the forms used in the Public Works Department of Government. In preparing the estimates the instructions given in the Public Works Department Hand Book shall, as far as possible be followed. A copy of detailed Estimate with rate analysis shall be furnished to the Accounts Section.
- 5.26 The estimate shall provide for the complete work and not piece-meal work. The cost of the work shall generally be calculated at the rates given in the schedule of rates and if for any reason those rates are not considered adequate and higher rates are necessary, a detailed statement showing the manner in which rates entered in the estimates are arrived at shall be appended to the estimate.
- 5.27 All incidental expenditure which can be foreseen shall be provided for in the estimates. Provision for contingent expenditure on the works may be made to the extent of 5% of the total charges. The provision for contingencies shall not be diverted to any new item not provided for in the estimates, without the sanction of the authority which sanctioned the original estimate.

the building is put. These rates shall be fixed by the University Engineer from time to time.

- 5.29 When the original estimate is likely to be exceeded for any reason by more than 10% or when a change of design or plan is necessary, a revised estimate shall be prepared as soon as the necessity arises and before the completion of the work.
- 5.30 If a work is abandoned after partial execution and is proposed to be taken up again, a fresh estimate shall be prepared before the work is restarted.
