

SNDT Women's University, Mumbai

**Master of Science (Home Science - Human
Development)**

as per NEP-2020

Syllabus

(2023-24)

Asha M Menon

Master of Science (Home Science - Human Development)

Program	M.Sc. Home Science - Human Development
Parenthesis	Human Development
Preamble	<p>Department of Human Development is committed towards the mission of improving the quality of life by creating and disseminating knowledge and awareness of prevailing intervention programs during the life span of human growth and development and immediate concerns of human development and family.</p> <p>The main focus is on motto of discovering by research, and integrating to apply the knowledge about life span development and family studies. The department makes conscious efforts to reach the main objectives honing students in the field of human development in order to equip them with skills to teach, to research, to counsel, to participate and conduct outreach programs and policy initiative.</p> <p>The development of scientific approach and knowledge about research and development in the areas of life span, family studies and early childhood education is the focus of the department.</p> <p>One of the major goals is also to facilitate the holistic personality development of the students by providing opportunities for presenting research papers in seminars and conferences, conducting workshops, training programs for children, teachers, parents and adults. The students are also equipped with entrepreneurial skills to establish human development institutions such as NGOs, child guidance</p>

	<p>clinics, day-care centers, crèches, and children activity centers.</p> <p>In addition, through experience of internship and product development, students become capable to connect discipline knowledge to professional and personal effectiveness.</p>
Program Specific Outcomes (PSOs)	After completing this program, Learner will be able to
	1. Analyze fundamental postulates of theories of human development, approaches to counseling and perspectives on Family studies and developmental interventions across life span.
	2. Align skills to work effectively in various fields of early childhood education such quality parameters of curriculum, planning and implementation of programs and provide ideal administrative set up.
	3. Demonstrate entrepreneurial skills to start own institutional career set up such as preschool, NGOs, Toy libraries, educational equipment industry.
	4. Design research projects and funding proposals
	5. Frame intervention modules to counter problems and enhance development at various stages of human development and family life cycle.
	6. Integrate programs for socially disadvantaged, 7. differently able and population with dissimilar sexual orientation and life patterns.
	8. Compare and use different approaches and techniques in counseling and family therapy.
	Demonstrate professional skills and ethical values in human development as a professional.
Eligibility Criteria for Program	<ol style="list-style-type: none"> 1. Candidates with an overall average of B grade or equivalent (50%) marks in the Bachelor's degree in Home Science from a recognized university are eligible to apply for admission to the Master's degree program in Human Development. 2. Candidates with Bachelor's degrees in faculties other than Home Science, Arts / Science/

	Management (BMS)/ Media (BMM)/ B.A. Home Economics from any recognized university are eligible provided they successfully complete the pre-requisites (12 credits) by the end of semester II
Intake (For SNTD WU Departments and Conducted Colleges)	25

Master of Science (Home Science - Human Development)

Course Syllabus

Semester I

1.1 Major (Core)

Course Title	Advanced Life Span Development
Course Credits	4 (Th)
Course Outcomes	<p>After going through the course, learners will be able to</p> <p>CO.1 Organize knowledge of various developmental changes and challenges from prenatal period to middle adulthood.</p> <p>CO.2 Able to articulate issues impacting different types and areas of human development.</p> <p>CO.3 Able to use the skills to manage issues at the time of birth and immediately after the birth.</p> <p>CO.4 Integrate different issues related to physical development and socio-emotional of adolescents</p> <p>CO.5 Demonstrate the knowledge regarding midlife crisis and address the issues.</p> <p>CO.6 Learn the developmental tasks and challenges at all stages of life.</p> <p>CO.7 Formulate strategies to provide environments for optimization of human potential at all stages</p>
Module 1 (Credit 1) Prenatal and Infancy	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none">1. Understand nature and concerns of prenatal development2. Develop insight in to required assessment immediately afterbirth3. Differentiate between genetic and environmental influences4. Understand nature of perceptual development during period of infancy

	5. Locate the areas of developmental concerns for awareness in community
Content Outline	<p>Unit 1: Conception-beginning of life, Genetic endowment and Genetic Counseling, APGAR Scale, DASII Scale</p> <p>Unit 2: Milestones of Prenatal Development and Environmental influences</p> <p>Unit 3: Perceptual development in Infancy</p> <p>Unit 4: Effects of Early deprivation and enrichment</p> <p>Unit 5: Attachment Development</p> <p>Unit 6: Role of Adults during Infancy</p>
Module 2 (Credit 1) Childhood: Early, middle and Late	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Understand the nature of physical, motor, emotional, cognitive, social and language developments during three stages of childhood 2. Locate the interlink among different types of developments of child in this stage of formative years 3. Develop insight into attachment and development of well-being among children 4. Provide guidelines about developmental milestones to stakeholders
Content Outline	<p>Unit 1: Changes in motor skills</p> <p>Unit 2: Socio cultural development</p> <p>Unit 3: Emotional development and well-being, study of attachment</p> <p>Unit 4: Cognitive development, language development and research trends</p>
Module 3 (Credit 1) Adolescence and young adulthood	
Learning Outcomes	After learning the module, learners will be able to

	<ol style="list-style-type: none"> 1. Identify various perspectives of development during adolescence development 2. Outline the issues related to reproductive health, nutrition and psychosocial issues during adolescence 3. Illustrate physical, social and emotional issues at the adolescence development. 4. Evaluate the concerns of relationships related family, parents and peer relationships 5. Formulate the crucial issues of young adulthood
Content Outline	<p>Unit 1: Biological, cultural and developmental perspectives on adolescents and reproductive health</p> <p>Unit 2: Emotional and social issues related to physical changes and aspects of cognitive development</p> <p>Unit 3: Family, parents and adolescents</p> <p>Unit 4: Health, nutrition and psychosocial issues and challenges</p> <p>Unit 5. Significance, developmental tasks, responsibilities, adjustments, parenthood, Independence, work life balance, gender role issues</p>
Module 4 (Credit 1) Middle Adulthood and Ageing	
Learning Outcomes	After learning the module, learners will be able to
	<ol style="list-style-type: none"> 1. Outline the developmental tasks and challenges during middle and late adulthood 2. Interpret effects of midlife crises due to physical changes and stressful events 3. Analyze issues related to family adjustment and generation gap 4. Develop crisis management during middle and late adulthood 5. Derive concerns of physical, social and psychological changes during late adult hood

Content Outline	<p>Unit 1: Physical, social and psychological changes during adulthood</p> <p>Unit 2: Competence, maturity, responsibility, stability and occurrence of menopause in women</p> <p>Unit 3: Midlife crisis, emptiness syndrome and stressful events, healthy coping strategies</p> <p>Unit 4: Family adjustments and generation gap</p> <p>Unit 5: Physiological changes, health concerns, cognitive and memory changes, support system development and awareness in death and dying</p>
------------------------	--

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Written Assignments
2. Case studies
3. Presentations and Group discussions
4. Related Films and article reviews
5. Development of awareness guidelines for community in the crucial areas of human development
6. Visit to Old age homes and submission of report

1.2 Major (Core)

Course Title	Theories of Behavior and Development
Course Credits	4 (Th)
Course Outcomes	After going through the course, learners will be able to
	<p>CO.1 Compare developmental perspectives and focus thrust areas of various theorists on human development and behavior</p> <p>CO.2 Understand strengths, shortcomings and implications of major theories of behavior and development</p> <p>CO.3 Identify various determinants of development focused by different theories</p> <p>CO.4 Acquire in depth understanding of the theories and models of development</p> <p>CO.5 Critically evaluate different theories of human development</p>
Module 1 (Credit 1) Psychoanalytic Theories	
Learning Outcomes	After learning the module, learners will be able to
	<ol style="list-style-type: none"> 1. Identify the significance and role of theories in understanding human development 2. Recognize the idea that early childhood experiences affect development of adult 3. Determine the reasons of deviated development 4. Describe and explain an individual's personality or behavior
Content Outline	<p>Unit 1: Significance of theory in understanding behavior</p> <p>Unit 2: Roles of theories in understanding human behavior, contributions of Indian Theorists (approaches in theory construction – inductive and deductive)</p> <p>Unit 3: Sigmund Freud's classical Psychodynamic Theory</p> <p>Unit 4: Erik Erickson's Psychosocial Theory</p> <p>Unit 5: Levinson's Adult Development Theory</p>

Module 2 (Credit 1) Cognitive and Language Theories	
Learning Outcomes	After learning the module, learners will be able to
	<ol style="list-style-type: none"> 1. Understand the cognitive process 2. Create insight about cognitive and language development. 3. Explain how internal and external factors influence an individual's mental processes to supplement learning
Content Outline	<p>Unit 1: Theory of cognitive development by Jean J. Piaget</p> <p>Unit 2: Multiple Intelligence Theory by Howard Gardner</p> <p>Unit 3.: Socio-cultural theory by Lev Vygotsky</p> <p>Unit 4: Nativist theory by Noam Chomsky</p> <p>Unit 5. Jerome Bruner's Theory of language development</p>
Module 3 (Credit 1) Motivation and Person-Centered Theory	
Learning Outcomes	After learning the module, learners will be able to
	<ol style="list-style-type: none"> 1. Understand theories of personality. 2. Gain knowledge of concepts constituting the major theories of personality and how they explain human behavior. 3. Critically appraise research findings in personality psychology.
Content Outline	<p>Unit 1: Maslow's Need Hierarchy Theory</p> <p>Unit 2: Henry Murray's Personality Theory</p> <p>Unit 3: Carl Roger's Person – Centered Theory</p> <p>Unit 4: Critical analysis of all theories</p>
Module 4 (Credit 1) Learning Theories	
Learning Outcomes	After learning the module, learners will be able to

	<ol style="list-style-type: none"> 1. Describe and distinguish among major learning theories 2. Understand what motivates people to learn, and what circumstances enable or hinder learning. 3. Employ knowledge of learning theories to analyze learning strategies, strengths, and needs
Content Outline	<p>Unit 1: Classical conditioning by Ivan Pavlov</p> <p>Unit 2: Operant conditioning by B.F. Skinner</p> <p>Unit 3: Social cognitive theory of Albert Bandura</p> <p>Unit 4: Ecological Perspective towards Human development</p>

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Individual/ Group Presentations
 2. Assignments
 3. Projects (Individual and Group)
- *External Examination does not always mean Theory paper. It may practical examination, Product submission, projects, etc. checked by external examiners.*
 - *Internal evaluation should not be Written Theory papers like Unit tests. Internal marks will be acquired through practical, small group or individual Projects, activities, presentations, seminars, workshops, products, assignments, application-based work, reports, etc.*
 - *Practical may be part of the main courses along with theory modules instead of having separate courses of practical work.*

Course Title	Person with Special Needs
Course Credits	4 (Th)
Course Outcomes	<p>After going through the course, learners will be able to</p> <p>CO. 1 Differentiate types of exceptional children CO.2 Identify the causes of disabilities. CO.3 Develop criteria to identify the disability CO.4 Compare different approaches describing disability CO.5 Develop individualized Education plan according to nature of disability CO. 6 Guide rehabilitation procedure for the disabled person</p>
<p>• Module 1 (Credit 1) Persons with special needs: An Overview</p>	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Develop sound understanding in exceptionality. 2. Understand causes and different approaches of disability
Content Outline	<p>Unit 1: Concept of disability, impairment and handicap Unit 2: Exceptional children: Types and definitions Unit 3: Causes of disabilities – prenatal, postnatal and heredity Unit 4: Various approaches to defining and describing disability – philanthropic, medical, administrative, legal, social, biomedical and political</p>
<p>• Module 2 (Credit 1) Cognitive, Neurological, sensorial and neuromuscular disabilities</p>	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Develop an understanding about cognitive and neuro-muscular/ behavioral disability- causes, types, identification and services available 2. Understand the services and rehabilitation programs available for disability

Content Outline	<p>Unit 1: Intellectual Disability</p> <p>Unit 2: Learning disabilities</p> <p>Unit 3: Cerebral Palsy and Autism</p> <p>Unit 4: attention deficit disorders</p> <p>Unit 5: Sensory impairments</p>
• Module 3 (Credit 1) Child Development Perspectives	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Identify the behavioral clues related to disabilities 2. Understand clinical assessment for disabilities 3. Develop IEPs for every disability 4. Knowledge about programs available in country for disabled people and inclusive practices
Content Outline	<p>Unit 1: Identification</p> <p>Unit 2: Assessment (Formal and informal)</p> <p>Unit 3: Individualized Education Plan</p> <p>Unit 4: Service delivery systems and Inclusion</p>
• Module 4 (Credit 1) Rehabilitation of the disabled	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Develop an insight into society's perception regarding disability 2. Develop knowledge about various service agencies and Acts/Laws in country for disabled people 3. Understand the importance of technical devices and equipment available to assist disabled people 4. Understand the importance of counseling services for disabled people and their families
Content Outline	<p>Unit 1: Attitude of the society towards the disabled</p> <p>Unit 2: Role of government, non-government (RCI Act, National Trust, RPWD Act)</p> <p>Unit 3: Role of science and technology</p>

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Case observation and presentation
2. Policy presentation
3. Workshop content development

Course Title	Advanced Early Childhood and Education
Course Credits	4 (Th)
Course Outcomes	<p>After going through the course, learners will be able to:</p> <p>CO.1 Identify the relevant areas in the field of Early Childhood Education.</p> <p>CO.2 Inter-relate local and inter-national types of children's education program.</p> <p>CO.3 Formulate physical designs/setup for preschool set-up.</p> <p>CO.4 Reflect on policies and programs regarding early childhood education and care.</p> <p>CO.5 Exhibit insight into theories and their application in early childhood education.</p> <p>CO.4 Reflect on policies and programs regarding early childhood education and care.</p>
Module 1 (Credit 1) Relevance of E.C.C.E	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Aware of the significance and importance of early years. 2. Understand objectives of Early Childhood Education. 3. Get acquainted with types of preschools. 4. Observe and evaluate different centers
Content Outline	<p>Unit 1: Concept, Need, Scope & Objectives of E.C.E.</p> <p>Unit 2: Types of Children's Program – Infant Education, Kindergarten, Montessori, Day Nurseries, Headstart, Balwadi, Child Care Resource Agencies</p> <p>Unit 3: Planning, Implementation & Evaluation of ECCE Programs</p> <p>Unit 4: Regulations and Policies</p>
Module 2 (Credit 1) Designing Physical Facility	

Learning Outcomes	<p>After learning the module, learners will be able to:</p> <ol style="list-style-type: none"> 1. Understand the importance of a well-planned physical environment in a preschool center 2. Outline the prerequisites essential to start and run the preschool
Content Outline	<p>Unit 1: Building, location, space Unit 2: Selection of equipment and material Unit 3: Designing preschool and classroom Unit 4: Indoor and Outdoor spaces</p>
Module 3 (Credit 1) Personnel in Early Childhood Education	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Understand administrative aspect of a center 2. Exemplify the various safety and security measures to be taken in a preschool 3. Perceive the importance of training and development of personnel in a preschool 4. Formulate ways and importance of communicating with the community.
Content Outline	<p>Unit 1: Various personnel in E.C.E. and their roles and responsibilities Unit 2: Professionalism, Safety and Security of children Unit 3: Training and Development of Personnel Unit 4: Communicating with the Community</p>
Module 4 (Credit 1) Policies and Programs for Early Childhood Education and care	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Understand various policies and programs for early childhood education and care 2. Aware about different policies and schemes

Content Outline	<p>Unit 1: Policy for young children (Constitutional laws, fundamental rights and directive principles)</p> <p>Unit 2: National Policy for Education</p> <p>Unit 3: Convention of Right of the child</p> <p>Unit 4: Welfare programs young children (I.C.D.S., mobile crèches, Sarva Shiksha Abhiyan,)</p>
------------------------	--

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Discussions on child safety
2. Developing strategies to implement different approaches in Indian classroom settings
3. Prepare a Checklist for appropriate Environment Settings and equipment

Course Title	Advanced Early Childhood and Education
Course Credits	2 (Practical)
Course Outcomes	<p>After going through the course, learners will be able to</p> <p>CO.1 Engage with a variety of ECE settings in Indian Educational Settings</p> <p>CO.2 Identify the relevant areas in the field of Early Childhood Education.</p> <p>CO. 3 Apply learnings from National and International contexts in preschool settings</p> <p>CO.4 Create environments for preschool to foster learning</p> <p>CO.5 Conceptualize and plan developmentally appropriate activities for children</p>
Module 1 (Credit 1) Observation	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Learn skills of lesson planning for various age groups 2. Workshops on planning different types of lessons based on topics, age appropriate & skills of writing a lesson plan. 3. Practice mock lessons in the classroom
Content Outline	<ol style="list-style-type: none"> 1. Observation of physical set up. 2. Study the classroom dynamics (teaching pupil interaction & teaching – learning)
Module 2 (Credit 1) Classroom dynamics	
Learning Outcomes	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Provide opportunities for observations of physical set up, teaching- learning & children in the classroom.
Content Outline	<ol style="list-style-type: none"> 1. Observation of physical set up. 2. Study the classroom dynamics (teaching pupil interaction & teaching – learning)

Module 3 (Credit 1) Lesson Planning & Conduction	
Learning Outcomes	After learning the module, learners will be able to
	1. Implement/ conduct lessons in the class
Content Outline	Students will be placed in pre-primary schools where they will conduct minimum of 10 lessons
Module 4 (Credit 1) Maintaining lesson plan journal	
Learning Outcomes	After learning the module, learners will be able to
	1. Develop skills of maintaining lesson plan journal
Content Outline	1. The students will present the journal with all the lesson plans & activities with appropriate illustrations

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Assignments
2. Mock lessons presentations
3. Evaluation of lessons in preschool
4. Journal with lesson plans

Course Title	Research Methodology
Course Credits	4 (Th)
Course Outcomes	<p>On the completion of course students will be able to:</p> <p>CO.1 Develop approach to carryout scientific research processes</p> <p>CO.2 Outline the research proposal and set appropriate process.</p> <p>CO.3 Distinguish between various types of researches.</p> <p>CO.4 Use various sampling and sampling techniques in research.</p> <p>CO.5 Develop the research tool and set the procedure of data collection.</p>
Module 1 (Credit 1) The Research Process	
	<p>After learning the module, learners will be able to</p> <ol style="list-style-type: none"> 1. Understand the process of research and its relationship to body knowledge and science 2. Determine research process based on existing researches 3. Recognize process of locating and formulation of problem 4. Develop insight into research design of scientific nature 5. Recognize the importance of ethics in research
Content Outline	<ol style="list-style-type: none"> a) Scientific approach to enquiry in comparison to native, common-sense approach b) Knowledge, theory and research c) Role, need and scope of research in the discipline of Home Science <p>Steps in Research Process and Elements of Research</p> <ol style="list-style-type: none"> a) Identifying interest areas and prioritizing Selection of topic and considerations in selection b) Review of related literature and research

	<p>c) Variables- types of variables including discrete and continuous variables</p> <p>d) Conceptual definitions and operational definitions Concepts, hypotheses and theories</p> <p>e) Hypothesis- meaning, attributes of a sound hypothesis, Stating the hypothesis and types of hypotheses Hypothesis testing- null hypothesis, sample distribution, level of significance, critical regions, Type I and Type II errors</p> <p>f) Research Design Research questions, objectives and assumptions</p>
Module 2 (Credit 1) Types of Research	
Learning Outcomes	After learning the module, learners will be able to
	<ol style="list-style-type: none"> 1. Understand and apply different types of research procedures 2. Structure research designs by knowing methods of research 3. Distinguish between quantitative and qualitative types of researches 4. Locate research areas in human development
Content Outline	<ol style="list-style-type: none"> a) Basic and Applied research, Qualitative and Quantitative research (brief review of differences) b) Historical research c) Descriptive research methods – survey, case study, correlational study, content analysis, causal-comparative research d) Analytic studies- pre-experimental, experimental research, quasi experimental research e) Qualitative research, Ethnography

	f) Evaluative research- general characteristics, use of qualitative methods in enquiry, scope and importance in Home Science
Module 3 (Credit 1) Sampling	
Learning Outcomes	After learning the module, learners will be able to <ol style="list-style-type: none"> 1. Understand relevance of sampling in research 2. Develop understanding in different types and respective techniques of sampling 3. Apply sampling procedures for specific research problems
Content Outline	<ol style="list-style-type: none"> a) Rationale, characteristics- meaning, concept of population and sample, and utility b) Types of sampling and generalizability of results c) Probability sampling - simple random sample, systematic random sample, stratified random sampling etc - random and non-random samples, random numbers and use d) Non-probability sampling - purposive samples, incidental samples, quota samples, snowball samples <p>General consideration in determination of sample size</p>
Module 4 (Credit 1) Tools for Data Collection	
Learning Outcomes	After learning the module, learners will be able to <ol style="list-style-type: none"> 1. Learn the process of tool development 2. Know different tools for data collection 3. Develop insight into procedure of data collection and coding of responses

Content Outline	<ol style="list-style-type: none"> 1. Primary and secondary methods of data collection 2. Different types of questionnaires, rating scales, check lists, schedules, attitude scales, inventories, standardized tests, interviews, observation 3. Development of tools, estimation of reliability and validity of tools 4. Procedure for preparation of the tool, administration of tools for data collection 5. Procedure for data collection 6. Planning for data analysis-coding of responses
------------------------	---

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

Assignment: Construction of tools for data collection, types of questions, interview schedule and Questionnaire.

Course Title	Adolescent and Later Life
Course Credits	4 (Theory)
Course Outcome	On completion of the course, the student will be able to <ol style="list-style-type: none"> 1. Identify growth and development during adolescent and youth. 2. Recognize psychosocial concerns and challenges of adolescents. 3. Map the physical, psychosocial concerns during midlife 4. Analyze psychosocial issues during adulthood. 5. Draft the demography of ageing population and analyze. 6. Formulate adjustment patterns of behaviors for elderly
Module 1(Credit1): Growth and Development and Adolescent and Youth	
Learning Outcomes	At the end of the module, the students will be able to: <ol style="list-style-type: none"> 1. Describe growth and development of adolescent and youth with different perspectives. 2. Evaluate psychosocial concerns and challenges during adolescents. 3. Identify intellectual development of adolescents
Content Outline	Unit 1. Biological, cultural and developmental perspectives and reproductive health of adolescents. Unit 2. Factors influencing growth & development, psychological issues related to physical changes and resilience in adolescence Unit 3. Aspects of intellectual development
Module 2 (Credit 1) Developmental Issues, Psychosocial Concerns and Challenges of Adolescence	
Learning Outcomes	At the end of the module, the students will be able to: <ol style="list-style-type: none"> 1. Locate psychosocial concerns of adolescents. 2. Summarize issues of adolescents belonging to marginalized Groups 3. Justify the need of moral development and relationship at

	this stage of adolescent.
Content Outline	<p>Unit 1: Nutrition and eating disorders Obesity, Anorexia and bulimia, Use and abuse of drugs, alcohol, Sexuality and related issues, Teen age pregnancy, Adolescent at risk violence, suicide, delinquency, STI, HIV / AIDS</p> <p>Unit 2: Vulnerable and marginalized adolescents Adolescent & youth in urban & rural context, Adolescents and media</p> <p>Unit 3. Moral development and relationships, Value education and morality, Life skills for personal competence, emotional intelligence, Parent – Adolescent relationship, Friendship and adolescents</p>
Module 3 (Credit 1) Concerns during Adulthood	
Learning Outcomes	<p>By the end of the module the learner will be able to:</p> <ol style="list-style-type: none"> 1. Identify psycho-social changes during adulthood. 2. Understand biological limitations during adulthood and later stage. 3. Describe midlife crisis such as health and employment and empty nest.
Content Outline	<p>Unit.1 Biological, cultural and developmental perspectives on adulthood and demography of ageing in India</p> <p>Unit 2. Psychological issues related to physical changes, Aspects of intellectual development, Recognition of biological limitations and health risks</p> <p>Unit 3. Psychosocial issues and midlife crisis, Work and family, health, Unemployment and job satisfaction, Emptiness syndrome, Stressful events.</p>
Module 4 (Credit 1) Adjustment Patterns and Changing Lifestyles during later life	
Learning Outcomes	<p>By the end of the module the learner will be able to:</p> <ol style="list-style-type: none"> 1. Identify psycho-social changes during late adulthood.

	<ol style="list-style-type: none"> 2. Understand biological limitations during adulthood and later stage. 3. Describe midlife crisis such as health and employment and empty nest. 4. Anticipate the scope of gerontological studies
Content Outline	<p>Unit 1. Family patterns in later life” Changing roles and the ageing family, Husband-Wife relations in old age, Sexual adjustment</p> <p>Unit 2. Retirement years and marital adjustment, Intergenerational family relations; grand parenthood; widowhood / Single-hood; alternative lifestyle; second marriage in the later life</p> <p>Unit 3. Physical and biological limitations, Impact of death on society; attitude towards death; denial and thoughts of death; bereavement, grief and coping.</p> <p>Unit 4. Emergence of gerontology, care for elderly, Social, medical, psychological, occupational problems, Implications of ageing population at micro and macro levels</p>

Course Title	Internship
Course Credits	4 (On Job Training)
Course Outcomes	At the end of the internship, the students will be able to: <ol style="list-style-type: none"> 1. Apply the knowledge of theory in to practice 2. Get acquainted with work environment 3. Integrate professional skill at workplace 4. Apply professional competence and skills at work place. 5. Connect human development knowledge to professional set up and life. 6. Apply management and administration skills and competencies at organizational level.
Module 1 (Credit 1)	Application of Knowledge and Skills learned through various course contents
Learning Outcomes	By the end of the module, students will be able to: <ol style="list-style-type: none"> 1. Apply knowledge gained in service organizations 2. Test the application of skills in the field
Content Outline	Unit1. Organization structure Unit 2. Areas of work
Module 2 (Credit 1)	Dealing with Challenges at internship places
Learning Outcomes	By the end of the module, students will be able to: <ol style="list-style-type: none"> 1. Outline the challenges 2. Apply strategies to counter challenges 2. Analyze causes of failure in case
Content Outline	Unit1. Observation of work setup Unit 2. Active participation in ongoing programs in organization
Module 3 (Credit 1)	Professional Development

Learning Outcomes	By the end of the module, students will be able to: 1. Describe necessary knowledge required to be professionally effective 2. Demonstrate skills to be effective in management 3. Apply professional ethics
Content Outline	Unit 1. Introduction of Department to organization Unit 2. Introduction of Educational program to internship institution Unit 3. Professionalism and work relationship
Module 4 (Credit 1) Personal Effectiveness	
Learning Outcomes	By the end of the module, students will be able to: 1. Enhance personal qualities 2. Enhance communication skills
Content Outline	Unit 1. Introduction of interning student to institution as Agents of change Unit 2. Identification of areas to be effective personally Unit 3. Effective communication, personality development

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Submission of Internship report
2. Case discussions
3. Presentations on work and personal challenges
