Invitation of Add-on course(s) proposals from all Departments, Centers, Conducted and affiliated colleges of SNDT Women's University, and other than SNDTWU Higher Educational Institutions, NGOs all over the Country including "Freelancers" and "Individuals" for SNDTWU-CHETNA recognition or collaboration for the Academic Year 2023-24

BACKGROUND

National Education Policy 2020 has envisioned holistic and multidisciplinary education as the development of all capacities (intellectual, aesthetic, social, physical, emotional, and moral) of human beings in an integrated manner. Quality education should prepare an individual to face the challenges of the real world. In the 21st century learning is no longer just about the acquisition of facts and knowledge; it needs to be applied to real-world situations with an understanding of consequences outside the classroom. An education system that encompasses a well-rounded, balanced education is one that produces active and productive global citizens who are globally aware and engaged 21st-century citizens. For this to occur, students need opportunities to develop not just the knowledge, but the skills, mindset, and moral standards required for a successful personal and professional life. This mission calls for the provision of a holistic education; one concerned with the growth of a student's intellectual, emotional, social, physical, artistic, creative, and spiritual potentials, and which is in tune with each child's unique needs and expertise. It actively engages students in the teaching and learning process, encouraging personal growth and collective responsibility.

The Centre for Holistic Education, Training and Novel Advancements (SNDTWU-CHETNA) is a center established by SNDTWU to develop and create a pool of need-based, Value-based, skill-based capacity-building add-on courses in collaboration with local, national, and international institutions. It will provide courses and programs to build character through human and

constitutional values also, develop life skills, employability skills, and 21st-century skills that are required for the betterment of the society, environment and the whole ecosystem. The center aims to act as a bridge between our past; the culture and the technological and social advancements in the future by introducing programs based on our culture and heritage for a sustainable future. The center aims to provide an environment to enhance the creativity of students by providing novel and unusual programs. To achieve this aim center creates a pool of add-on competency-building courses to reach the maximum number of students of the university and beyond the university through local, national, and international level collaboration.

SNDTWU-CHETNA Pool of courses

Courses in SNDTWU-CHETNA Pool will be categorized as follows:
