

Notice

All the interested delegates, faculty and research students are invited for the Endowed guest lecture on "Integrated inter-disciplinary approach in tackling antibiotic resistance in Tuberculosis" by Dr. Sanjib Bhakta, Professor of Molecular Microbiology and Biochemistry and Head of ISMB Mycobacteria Research Laboratory at Birkbeck, University of London, UK. The lecture is scheduled on 16th April, 2019 at 10.30 am to 12.30 pm, at the Committee room, S.N.D.T. Woman's University, Juhu Campus, Mumbai-400049.

Tuberculosis has become very serious issue all over the world, as the number of persons getting infected has increased up to 10 million. India is one of the high epidemic countries for TB. Dr. Sanjib Bhakta has vast experience in Tuberculosis research. His research area of expertise are new targets for anti-tubercular agents, novel mechanisms for anti-tubercular agents, novel anti-tuberculosis nanodelivery formulation etc. To know more about the speaker, please see: <http://www.bbk.ac.uk/biology/our-staff/academic/sanjib-bhakta>

Regards,

Dr. Pratima Tatke
Principal & Professor
