organizes an

International Conference in Education (ICE2)
Global Challenges in Education : Resilience and Reinvention
December 1 - 4, 2021

with CRE STATUS

About the Conference

Lockdowns in reaction to COVID-19 have disturbed conventional teaching, resulting in school closures worldwide. Everybody, particularly educators have demonstrated incredible resilience while juggling unanticipated changes in their work and personal lives. Numerous challenges have been faced and overcome, resulting in changes that have transformed what education looks like nowadays. Educators who forged ahead resiliently unafraid of change and reinvention actively seeking developmental opportunities, are the ones who thrived despite the pandemic. They are the ones who have mastered the idea of resilience and have taken on the challenge of reinvention. Bringing people from different backgrounds and with different life experiences together can generate ideas or perspectives, a variety of interpretations and approaches which can spark creativity and innovation. ICE2 aims at providing a platform to share experiences and opinions thus providing global perspectives to educational challenges and potential solutions to overcome them.

About SNDT Women's University
