

Instructions to Authors

DefenSec2025 invites author to submit the Full Research papers. Good quality Review papers are also encouraged to submit. The paper must be original, unpublished and not under review simultaneously considered for publication elsewhere. The papers will be double peer-reviewed. Only the accepted and registered papers will be considered for presentation during the conference and publication in the proceeding with an ISBN number.

All the presented conference papers may be recommended for publication in UGC CARE-listed journal in process. (Subject to additional review and payment)

Note: Acceptance of a full-length submission is strictly based on the reviewers' comments.

Manuscript Preparation

Manuscript length should be minimum 5 and maximum 6 pages, and it should be written in English. Manuscripts, provided with the scientific content is of high value. All submitted manuscripts must be written in IEEE two column format with Times New Roman font. All the headings other than the title of the paper must be in capital letters. Paper must include the following items:

- Title (Font : Times New Roman, Size 24)
- List of authors, their affiliations, email addresses (Font : Times New Roman, Size 9)
- Abstract (Maximum 300 words) (Font : Times New Roman, Size 9)
- Keywords (Maximum 5-6 words) (Font : Times New Roman, Size 9, Bold and Italic)
- Introduction (Font : Times New Roman, Size 10)
- Related Work
- Methodology
- Results and discussion
- Conclusions
- References

Follow the following IEEE format given on the page number 4 and 5.

Paper Submission

All submissions need to be submitted through the CMT using the link :

<https://cmt3.research.microsoft.com/DefenSec2025>

Process to register on Microsoft CMT

1. Click on the given link <https://cmt3.research.microsoft.com/User/Register>
2. Enter the Personal Information and Profile Information to create an account on CMT to complete the registration process of CMT.
3. Account Verification: You may need to verify your email address by clicking a link sent to the address you provided.

2. Find the Conference Site:

- **Use a link:**

The conference chair may provide a direct link to the CMT site in the call for papers or on the conference website.

- **Search in CMT:**

If you don't have a link, log into your CMT account, navigate to "All Conferences," and search for the conference using the filter field.

3. Submit Your Paper:

- Once you've found the conference site, you'll typically find a button or link labeled "Create New Submission".
- Follow the instructions provided on the submission form to upload your paper (often in PDF format) and any required supplementary materials.
- You may also need to provide additional information, such as an abstract, author details, and contact information.
- If the conference requires a copyright form (e.g., IEEE Copyright form), you may need to download, fill out, and upload it to CMT.
- After submitting, ensure you have enough time before the deadline to make any necessary edits.

Camera Ready Paper Submission

Please carry out the following steps to submit the camera-ready paper and online registration:

1. Click the <https://defensec.vulnuris.com/register> link to navigate to the registration on the conference website. Register online at <https://forms.gle/uTW5Gj6izvy9KitJ9> available on the registration page.
2. Make payment for registration through NEFT/RTGS/Bank transfer.

Name of the Beneficiary: NEWTONS APPLE
IFSC: HDFC0006077
Account Number: 50200052014870
Account Type: Current Account
Bank Name: HDFC Bank
Destination Branch: MOSHI, PRADHIKARAN
Swift Code : HDFCINBB

And Complete the registration process.

3. Convert your paper in a IEEE conference paper template. Give the filename as paper ID, followed by the title of the paper without any spaces. And submit it through CMT link. For example, if the title of the paper is “Advances in AI” and the paper id is “212” then the filename will be “212Advances_in_AI”

Please note that the Last date for submission of the camera-ready paper, payment of the registration fee, and online registration is June 10, 2025.

Author Registration

The authors who present/attend a paper in the conference will receive a presentation certificate. The conference registration and payment is required to be completed by the presenter/attendee.

Note : The authors that have not registered will not receive the presentation certificate.

Feel free to write to "Chair, DefenSec2025" at conference@computersc.sndt.ac.in should you have any questions or concerns. Please remember to always include your paper ID, whenever inquiring about your paper.

Paper Title* (use style: *paper title*)

*Note: Sub-titles are not captured in Xplore and should not be used

line 1: 1st Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

line 1: 4th Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

line 1: 2nd Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

line 1: 5th Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

line 1: 3rd Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

line 1: 6th Given Name Surname
line 2: *dept. name of organization*
(of Affiliation)
line 3: *name of organization*
(of Affiliation)
line 4: City, Country
line 5: email address or ORCID

Abstract—This electronic document is a “live” template and already defines the components of your paper [title, text, heads, etc.] in its style sheet. ***CRITICAL: Do Not Use Symbols, Special Characters, Footnotes, or Math in Paper Title or Abstract.** (Abstract)

Keywords—*component, formatting, style, styling, insert (key words)*

I. INTRODUCTION (HEADING 1)

This template, modified in MS Word 2007 and saved as a “Word 97-2003 Document” for the PC, provides authors with most of the formatting specifications needed for preparing electronic versions of their papers. All standard paper components have been specified for three reasons: (1) ease of use when formatting individual papers, (2) automatic compliance to electronic requirements that facilitate the concurrent or later production of electronic products, and (3).

II. RELATED WORK

A. Selecting a Template (Heading 2)

First, confirm that you have the correct template for your paper size. Write sub points here if necessary.

B. Maintaining the Integrity of the Specifications

The template is used to format your paper and style the text..

III. METHODOLOGY

Before you begin to format your paper, first write and save the content as a separate text file.

A. Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract..

B. Units

- Use either SI (MKS) or CGS as primary units. (SI units are encouraged.) English units may be used as

secondary units (in parentheses). An exception would be the use of English units as identifiers in trade, such as “3.5-inch disk drive”.

- Avoid combining SI and CGS units, such as current in amperes and magnetic field in oersteds. This often leads to confusion because equations do not balance dimensionally. If you must use mixed units, clearly state the units for each quantity that you use in an equation.
- Do not mix complete spellings and abbreviations of units: “Wb/m²” or “webers per square meter”, not “webers/m²”. Spell out units when they appear in text: “. . . a few henries”, not “. . . a few H”.
- Use a zero before decimal points: “0.25”, not “.25”. Use “cm³”, not “cc”. (*bullet list*)

C. Equations

The equations are an exception to the prescribed specifications of this template. You will need to determine whether or not your equation should be typed using either the Times New Roman or the Symbol font (please no other font). To create multileveled equations, it may be necessary to treat the equation as a graphic and insert it into the text after your paper is styled.

Number equations consecutively. Equation numbers, within parentheses, are to position flush right, as in (1), using a right tab stop. To make your equations more compact, you may use the solidus (/), the exp function, or appropriate exponents. Italicize Roman symbols for quantities and variables, but not Greek symbols. Use a long dash rather than a hyphen for a minus sign. Punctuate equations with commas or periods when they are part of a sentence, as in:

$$a + b = \gamma \quad (1)$$

Note that the equation is centered using a center tab stop. Be sure that the symbols in your equation have been defined before or immediately following the equation. Use “(1)”, not “Eq. (1)” or “equation (1)”, except at the beginning of a sentence: “Equation (1) is . . .”

Identify applicable funding agency here. If none, delete this text box.

D. Some Common Mistakes

- The word “data” is plural, not singular.
- The subscript for the permeability of vacuum μ_0 , and other common scientific constants, is zero with subscript formatting, not a lowercase letter “o”.
- In American English, commas, semicolons, periods, question and exclamation marks are located within quotation marks only when a complete thought or name is cited, such as a title or full quotation. When quotation marks are used, instead of a bold or italic typeface, to highlight a word or phrase, punctuation should appear outside of the quotation marks. A parenthetical phrase or statement at the end of a sentence is punctuated outside of the closing parenthesis (like this). (A parenthetical sentence is punctuated within the parentheses.)

IV. RESULTS AND DISCUSSION

Write about the research finding and discuss the results.

Figures and Tables

a) *Positioning Figures and Tables:* Place figures and tables at the top and bottom of columns. Avoid placing them in the middle of columns. Large figures and tables may span across both columns. **Figure captions should be below the figures; table heads should appear above the tables. Insert figures and tables after they are cited in the text. Use the abbreviation “Fig. 1”, even at the beginning of a sentence.**

TABLE I. TABLE TYPE STYLES

Table Head	Table Column Head		
	Table column subhead	Subhead	Subhead
copy	More table copy ^a		

^a Sample of a Table footnote. (Table footnote)

Fig. 1. Example of a figure caption. (figure caption)

Figure Labels: Use 8 point Times New Roman for Figure labels.

We suggest that you use a text box to insert a graphic (which is ideally a 300 dpi TIFF or EPS file, with all fonts embedded) because, in an MSW document, this method is somewhat more stable than directly inserting a picture.

To have non-visible rules on your frame, use the MSWord “Format” pull-down menu, select Text Box > Colors and Lines to choose No Fill and No Line.

V. CONCLUSION

Provide conclusion of the research paper and research work.

ACKNOWLEDGMENT (Heading 5)

Put sponsor acknowledgments in the unnumbered footnote on the first page.

REFERENCES

The template will number citations consecutively within brackets [1]. The sentence punctuation follows the bracket [2]. Refer simply to the reference number, as in [3]—do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] was the first ...”

Unless there are six authors or more give all authors’ names; do not use “et al.”. Papers that have not been published, even if they have been submitted for publication, should be cited as “unpublished” [4]. Papers that have been accepted for publication should be cited as “in press” [5]. Capitalize only the first word in a paper title, except for proper nouns and element symbols.
