**Total no. of sessions: 4**

## **SESSION 1: Decoding AI**

AI- What is it? Are we becoming an AI driven human race with a new comrade in our life? Understanding AI as a concept affecting our day-to-day activities and its roles in our everyday lives.

## **SESSION 2: AI and mental well-being**

Join our session delving into the intersection of AI and human well-being.

Explore the impacts of AI on mental wellness, its influence on shaping human behavior and learning abilities, and the far-reaching implications on our social psychological, and emotional systems.

## **WORKSHOP: AI Bootcamp (Befriending AI tools)**

In this expert- led workshop, we will explore the collaborative potential of humans and AI. Discover how leveraging the strengths of both can maximize benefits, while ensuring ethical use of diverse AI platforms in our current digital era.

## **PANEL DISCUSSION: Future of Jobs in the AI Era**

Join our panel discussion about how AI might change jobs in the future.

Presently, jobs depend on what people can do with their skill set, but we'll discuss how AI could affect that in the future.
