

**Mapping of Level of Learning Outcomes and Content in  
Geography, M.A. First Year; Semester I Examination**

**M.A. (Geography)**

**Course 107001: Geomorphology**

**Course Objectives**

1. Analyse the fundamental geomorphic processes in the formation of various landforms and theories of evolution of earth.
2. Evaluate land natural resources and the conservation of landforms.
3. Apply the geomorphic knowledge for the available land resource management and planning.

Day & Date	Semester	Subject Name	Time	Code	Max. Marks
Friday 15/11/2019	I (Fresh/ Repeater)	Geography- Geomorphology	11.00 AM to 01.00 PM	107001	50

**Note:** Attempt any two questions from Q. No. 1 to Q. No. 3.  
Question No. 4 is compulsory.  
Draw neat diagrams and sketches wherever necessary.  
Use of map, stencil and calculator is allowed.

**Q 1. A. Select the correct alternatives**

**10**

	Unit	LO and Level as per RBT	Marks
Q1. Define Geomorphology. Write in detail about the 'Threshold Concept in Geomorphology.	1	1 Understand & Analyse	15
Q2. What is Seismicity ? Explain the seismic activities in detail with the help of Interior of Earth.	2	2 Understand & Analyse	15
Q3. Write in detail about factors controlling weathering processes. Explain any one process of Biological Weathering.	3	3 Analyse and Criticize	15
Q4. Write short note on any two. 1. Nature of Geomorphology 2. Applied Geomorphology 3. Analysis of Slope Model	4	3 Understand and Analysis	15

## Course 107003: Economic Geography

**Course Objectives:** Learners will be able to

1. Apply the basic concepts of economic geography in classification of economic activities and relate it with changing world economy.
2. Criticize the theoretical models with technological advancement and assess their application in current industrial pockets.
3. Evaluate the significance of trade and transportation in the local to global scenario with reference to economic development.

Day & Date	Semester	Subject Name	Time	Code	Max. Marks
Wednesday 20/11/2019	I Fresh	Geography-Economic Geography	11.00 AM to 01.00 PM	107003	50

**Note:** Attempt any two questions from Q.No. 1 to Q. No. 3.

Question No. 4 is compulsory.

Draw neat diagrams and sketches wherever necessary.

Use of map, stencil and calculator is allowed.

**Q 1. A. Select the correct alternatives**

**10**

		LO and Level as per RBT	
	Unit		Marks
Q1. Write in detail the nature, scope and importance of Economic Geography.	1	1 Remember & Understand	15
Q2. Critically examine Von Thunen's Theory of Agricultural Location.	2	2 Analyse & Criticize	15
Q3. Explain the correlation between transportation and trade development with appropriate examples.	3	3 Analyse and Criticize	15
Q4. Write short note on any two. 1. Classification of Economic Activities 2. Measurements of Economic Development 3. Trading Blocs	4	2 & 3 Analysis	15
