LEARNING OUTCOMES

The SNDT Law School has established the following “Learning Outcomes” for students graduating from its B.B.A., LL.B. programme-

1. Legal Reasoning

Interpret and apply law accurately as well as investigate and analyze facts effectively.

Explanation- This may include the ability to:

1. Synthesize information about legal doctrine from primary sources including statutes, case law, and regulations;
2. Use secondary sources to promote understanding of primary authorities and identify and develop legal arguments;
3. Determine relative weight of legal authorities;
4. Apply the law correctly to different facts and in different contexts;
5. Detect ambiguity, consistency, and inconsistency within and among different rules and sources of law; and
6. Investigate and analyze facts effectively.

2. Legal Research

Engage in successful legal research.

Explanation- This may include the ability to:

1. Find and then rank the weight of authority for the primary and secondary sources available for given subject areas;
2. Identify and analyze settled law, as well as novel legal questions and ambiguities within the law;
3. Use cost-effective research methods; and
4. Efficiently search on the major commercial legal research databases.

3. Written Communication

Write effectively.

Explanation- This may include the ability to write:

1. Legal documents such as motions, briefs, memoranda, contracts, letters, and e-mail, reflecting the rhetorical conventions and expectations for the particular legal writing genre;
2. Objective and predictive legal analysis that can be used as a tool for legal advice or opinion; and
3. Clear and appropriate persuasive arguments.

It may also include the ability to cite appropriate legal authority to support statements about the law and follow standard citation and attribution style and conventions.

4. Oral Communication

Speak effectively.

Explanation- This may include explaining legal arguments and advice in both formal and informal settings, adjusting both style and substance to account for both the audience and the purpose of the communication. For courses that teach courtroom advocacy, this may include the ability to advocate effectively before a fact finder such as a hearing officer, judge or jury in a simulated or actual legal forum. It may also include mastery of tribunal courtroom decorum and the procedures of the simulated or actual forum.

5. Problem Solving

Engage in effective problem solving.

Explanation- This may include participating effectively in problem solving processes with legal dimensions, whether with a focus on individual or institutional problems, as well as thinking strategically.

With regard to problem solving related to clients, this may include:

1. Listening to and engaging with clients to identify objectives and interest Interests;
2. Assessing, developing, and evaluating both legal and non-legal options to meet client goals; and
3. Managing a complex workload diligently, reliably, and within deadlines.

6. Ethical Conduct

Fulfill professional and ethical responsibilities.

Explanation- This may include:

1. Pursuing clients' interests, as guided by the relevant rules of professional responsibility;
2. Manifesting professional and ethical behavior and encouraging others to do the same; and
3. Working to improve the law and the quality of justice in the legal system.

7. Contextualize Law

Situate legal issues within broader institutional contexts.

Explanation- This may include analyzing the law from diverse and global perspectives; discussing the political, social, and economic forces that shape laws; and examining not only the likelihood of an argument or strategy's legal success, but also the moral, economic, social, political, and other factors implicated by the argument or strategy.
