2. BREAST CANCER AWARENESS

Date: October

Abstract: October is Breast Cancer Awareness Month, which is an annual campaign to increase awareness of the disease. While most people are aware of breast cancer, many forget to take the steps to have a plan to detect the disease in its early stages and encourage others to do the same.

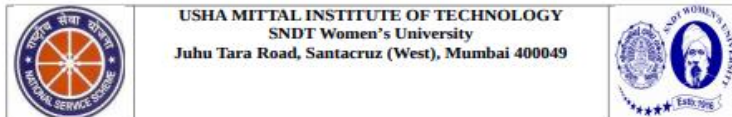

Breast Cancer Awareness Month

Millions of women are affected by breast cancer each and every year in the United States alone. While the disease has a high survival rate, detecting and treating the disease early on is the key to surviving it. Breast cancer awareness has become a very common term these days, as more and more women are realizing the importance of getting tested early. There are many different things women can do to help protect themselves against this horrific disease. Self breast examinations are one of the most effective ways that women can be sure they are cancer free.

There are also many famous women who have survived breast cancer, and through their speaking arrangements and other help, they have made a big difference in millions of women's lives. Although breast cancer can be deadly, it can also be non-fatal if is treated properly. Through breast cancer awareness and education, people can learn about preventative measures, diagnostic tools, and helpful survival tips. It is very important that women of all ages are educated about the different aspects of

Informative Session on Cashless transaction Date

22. CASHLESS TRANSACTION SEMINAR

Event: Informative Session on Cashless transaction

Date: 9th January 2017

Time: 11:00 AM

Venue: Mini Auditorium

Participating students: 180

Facebook Link:

<https://www.facebook.com/NssUmit2013/photos/a.1459031140992251.1073741848.1377352522493447/1886470424914985/?type=3&theater>

Abstract: -The session on cashless transaction was carried out by a few officials from AXIS bank (dadar branch) who involved all the students into a Q&A round. All the officials one by one discussed various aspects of net banking and mobile banking, cleared issues regarding on-line frauds and thefts and explained procedures to open an account and how to use it. The session ended with a presentation showing a detailed and explanatory flowchart for getting to know online transaction in an easy way. Officials present were Vandana Kale, Shruti Nandkeyolkar, Vijay Mokashi and Abhishek Chauhan. The session was also supported by Dr. Linda Dennis.

Save the beach cleanliness drive

SAVE THE BEACH CLEANLINESS DRIVE

Date: August 11, 2018

Abstract: Water and air are the two essential commodities of life and today these have become global garbage cans! Researchers suggest that a large amount of plastic waste inevitably enters the environment, and the bodies of 90% of seabirds contain plastic debris. In some areas there have been significant efforts to reduce the prominence of plastic pollution, through various beach cleanliness drives.

In an attempt to save our water bodies and the marine life that lives under the sea NSS Unit of UMIT organized a Beach Cleanliness Drive along the shores of the Juhu beach in collaboration with Mission Green Mumbai Organization. Green soldiers of NSS-UMIT participated in large numbers to help save the sea and clean the beach.

The event commenced at 8:00 AM in the morning and the cleaning drive was completed around 11:00 AM. Apart from the cleanliness drive social media awareness was also done to help save the marine life because "We are tied to the ocean. And when we go back to the sea, whether it is to sail or watch – we are going back to where we came from."
